PMC FSCC Project

- Aims to deliver **learner-centered short-term courses**, through micro-credentials to address **food security and climate change** concerns.

- Intends to utilize advances in **digital technologies** to develop and offer **online modules** that will address the twin issues of food security and climate, through micro-credentials.

PMC FSCC Project

- **Micro-credentials** developed by the Project will **target not only university students but other professionals** interested in FSCC-related studies but who do not have the time, or who do not intend to complete a degree program.

PMC FSCC Project

- **The flexible approach of micro-credentials** enables an individual, who **may not be enrolled** in the university but would want to **upskill or reskill**, to meet the demands of the labor market and respond to specific skill shortages.

- These **micro-credentials may also be stacked for crediting** towards a formal program.

PMC FSCC Project

- Contribute to the European Commission's overarching priorities on **Green Deal**, as well as on **digital transformation and data technologies** which will be used both in the delivery and in the content of the micro-credentials.

- Linked with the **commitmen**t of member countries for **Paris Conference on Climate Change**, and the challenges of food security for the implementation of the **ASEAN integrated market**.

Work Package 1: Project Management and Coordination
Work Package 2: Micro-credentials Development and Training
Work Package 3: Micro-Credentials University Policy and
Quality Plan
Work Package 4: Monitoring, Review and Evaluation of
Micro-credentials
Work Package 5: Communication and Dissemination

Work Package 1: Project Management and Coordination

Deliverables   - Progress Report

- Quality Assurance Strategy

- Quality Assurance Reports

- Sustainability Strategy

- Kick-off Meeting Report

Work Package 2: Micro-credentials Development and Training

Deliverables   - **Needs Assessment Report**

               - **Report on training workshops for module writers**

               - **Guide for facilitators**

               - **Guide for students**

               - **Course Materials**

               - **Learning Platform and Online Modules for Micro-credentials**

               - **Pilot Testing Report**

Work Package 3: Micro-Credentials University Policy and Quality Plan

Deliverables - Roadmap for the Establishment of Micro-Credentials
- Consortium Agreement on the Joint Offering of PMC FSCC
- Report on harmonizing university policies to support micro-credentials
- Report on establishing common criteria and procedures of QA for micro-credential courses and programs

Work Package 4: Monitoring, Review and Evaluation of Micro-credentials

Deliverables - Guidelines for monitoring, review and evaluation of Micro-credentials
- Implementation guidelines for monitoring, review and evaluation of Micro-credentials

Work Package 5: Communication and Dissemination

Deliverables - Project Website and Social Media Pages
- Newsletters
- Dissemination Strategy
- Conference Proceedings
- Community of Practice

Thank you very much
