European Commission

Participant Register

Need help?

The participant register is now multilingual! ...e top right corner of the Portal.

If you want to participate in a call for proposals or in a call for tenders with eSubmission, your organisation needs to be registered and have a 9-digit Participant Identification Code (PIC). Please quote your PIC in all correspondence with the Commission.

The register contains all participants of EU programmes.

Is your organisation already registered? PIC search

Please check whether your organisation has already been registered. If so, no need to register it again.

Search a PIC

Make sure your organisation doesn't have a PIC already

Register your organisation

To register your organisation or as a natural person, you need to login into the Portal or, if you are a new user, create your account.

Check what information you need to register in the Online Manual - and keep it to hand during the registration procedure. To start registration, click on the button below.

Register your organisation

You can suspend the registration process at any time: the data entered can be saved as draft and you can continue your registration later. To return to your registration, please log in and get into My Organisation(s) in the My Area section. Incomplete, draft registrations are automatically deleted after one year.

Additionally, for actions where the SME status is an eligibility criterion (like, e.g. the SME Instrument) you must also carry out the SME self-assessment.

Should your project or tender be successfully evaluated, the registered data will be verified by the Validation Service team before the signature of the Grant Agreement or of the Framework Contract.

If not, you can start registering

How to register in the Participant Register

- The person who registers an organisation receives the **Self-Registrant role**: this person is the **contact person with the Commission services** for this organisation **until a LEAR is appointed**

- When the registration is completed, the PIC number is **provisional**, meaning that the submitted data then needs to be validated by the Validation Services

- **All contact with the Validation Services must take place inside the Participant Register**

Legal validation

- Registration data is verified by REA Central Validation Service (CVS) **after a successful evaluation**
- The legal validation of a participant is done **once**,
  when the entity has to sign its first Grant Agreement or Contract
- It is **reused** for future participations in EU grant and procurement actions
- Validation is required for **all beneficiaries and affiliated entities**
  (linked third parties under Horizon 2020)

Sustainable, secure and competitive energy supply (2023/24)

This Destination includes activities targeting a sustainable, secure and competitive energy supply. In line with the scope of cluster 5, this includes activities in the areas of renewable energy; energy system, grids and storage; as well as Carbon Capture, Utilisation and Storage (CCUS).

The transition of the energy system will rely on reducing the overall energy demand and making the energy supply side climate neutral, in current and future climate conditions. R&I actions will help to make the energy supply side cleaner, more secure…

In this step you can edit the Administrative Forms and upload the proposal and its annexes. You may return to this step from the 'My Proposals' section of the Funding & Tenders Portal.

Submit your proposal as early in the process as possible - you can update and resubmit an improved version many times before the call closure.

Submitting a proposal will overwrite any previous versions of this same proposal - this process is irreversible.

Any changes made to the proposal will not be available to the European Commission service unless resubmitted before the call closure.

Your proposal contains changes that have not yet been submitted.
