PROJECT NEWS

## Erasmus+ Peacebuilders Network

Join ESAA Project for EMA and OCEANS Networks

*Kate Ramil*

The ERASMUS+ Peacebuilders Network aims to create a networking and capacity building platform, as well as offer training opportunities to empower and train ESAA Members & other young people to act as peace advocates. It will open space to proactively stand for peace & peaceful dialogues to prevent and manage conflicts and to build a network of sustainable peace advocates. Additional benefits include education on civic rights and responsibilities, leadership and negotiation skills especially in turbulent conditions. The project will enable North-South collaboration and exchange of best practices as well as challenge stereotypes and biases. It seeks to strengthen the Erasmus outreach through this project while also highlighting the values of EU. Activities will include a tailor-made training module that are both guided and self-paced. The nature of membership under the alliance of ESAA positions the project strategically,

GLOBAL DIGITAL  
DEVELOPMENT FORUM

**Ronda Zelezny-Green**  
Digital Learning Director,
