CBHE	CBVET

Our priorities for education

N°1 priority for education

Expansion and diversification of higher education by concluding and implementing the curricular harmonization process, creating degree courses tailored to the demands of the job market, particularly in the STEAM areas, materializing the postgraduate development project and building the capacity of pedagogical higher education institutions.

N°2 priority for education

Boosting the science, technology and innovation system by increasing the number of researchers in Research and Development per thousand inhabitants, increasing scientific journals publications per thousand inhabitants, creating business incubators with technological training in the higher education institutions and creating a center of competence in the health sector and the agriculture sector.

N°3 priority for education

Expansion of the National Vocational Education and Training System by building, upgrading and modernizing training centers, vocational training centers, rural schools, training schools, integrated technological training centers, and vocational training centers, also, developing content aimed at female empowerment, especially in technical and technological areas.
