

Uruguay Country Profile

Who are our mobility partners?

7 universities in 64 partnerships

Our priorities for education

N°1 priority for education

More opportunities for all, The construction of a fairer society requires a significant expansion of access and graduation in the different educational paths. Early disengagement from the education system is reflected in the low graduation rates and, by affecting the weakest low graduation rates and, by affecting the weakest, threatens equality of opportunity.

N°2 priority for education

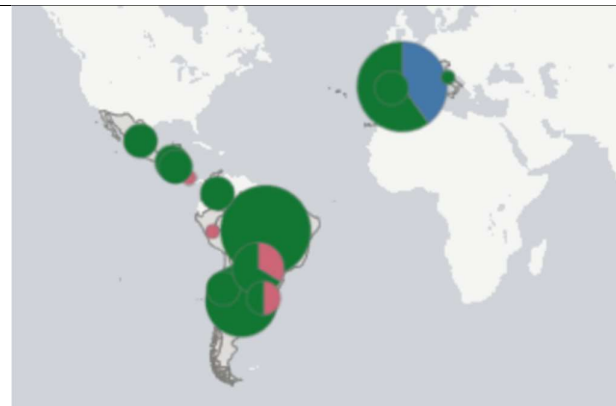

Quality learning, with an emphasis on the most vulnerable. Ensuring attendance at educational establishments is necessary, but not enough. We have to improve the overall quality of the learning that is achieved in the system, and we have to achieve this while at the same time reducing inequity in the results.

N°3 priority for education

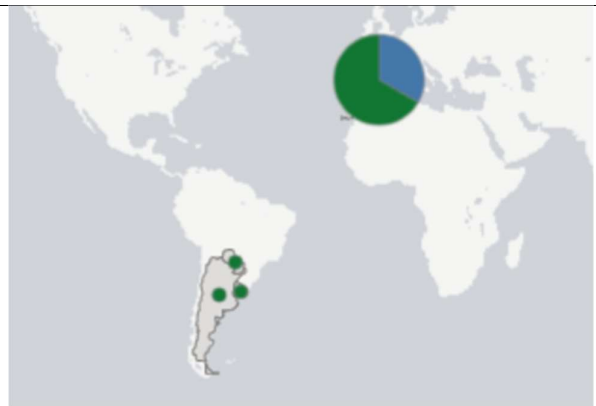

Better trained teachers for better education. Higher quality education requires strengthening teacher training. We must move forward with a reform of education training that will allow us to increase the the qualification rates of our teachers and strengthen their preparation to face the challenges imposed by technological evolution, the development of the knowledge economy, educational inclusion.

Who are our capacity-building partners?

CBHE

CBVET
