Erasmus Mundus Joint Masters (EMJM)

Concept & 2024 selection results

Kick-off meeting

21-22 November 2024

*European Education and Culture
Executive Agency*

Erasmus Mundus Ambition

3 main priorities

- More **strategic** and more **attractive** for institutions and students
- More **open** and more **inclusive** for institutions and students
- More **sustainable** projects beyond EU funding

European Commission's strategy

A funding scheme...

- Targeted on **studies** rather than mobility
- More **generous** (increased funding for institutions and individual)
- More **simple** and **flexible** (less and clearer rules and prescriptions, principles rather than rules, simple financial model based on unit costs)

Operational & financial consequences

Change way of monitoring projects at EACEA

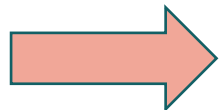

- **Less rules** to check and less reporting requirements:
“more support than control”
- More focus on the **institutional aspects** (e.g. cooperation arrangements, degrees, enrolled students)
- Priority on **exchange of experience** and practice (a new initiative for implementation since 2023)

Consequences for the institutions

More autonomy and responsibilities from an operational & financial point of view

- Need for internal **clarification** and **formalisation** of modus operandi
- Need for transparent and comprehensive information to **external stakeholders**

Main tools: Consortium agreement, Student agreement, Website

Turn the principles/priorities into new practice
